An issue in full screen mode could prevent the screen from being locked in some cases has been fixed. An issue causing font display to be distorted in some cases has been fixed. An issue causing the screen to be locked if the game was quit has been fixed. An issue causing the game to freeze in some cases when switching to fullscreen has been fixed. An issue causing part of the 3dmark model preview window to flicker has been fixed. An issue causing a black screen in fullscreen when the game was quit has been fixed. An issue causing pop-ups to appear after the game was quit has been fixed. Unfortunately, for no apparent reason, there is a new version of the patch 1.0.1, which can cause an "ERROR: The shortcut /script can not be found" after clicking on "Cancel" in the Launcher. To solve this problem, all you need to do is to disable the patch, restart the launcher, and then turn on the patch again. Tip: To prevent the error from happening again, it's recommended to wait for the patch to be released by Foramark again. Current version * Full version: Major Features The last major feature is the addition of to the 3Dmark benchmarking engine, the new W8 version. The best graphics card of the Windows 8 is to be tested. Tests: ES Reactor - A synthetic benchmark. ES 3DMark Vantage - A synthetic benchmark, more accurate than the synthetic benchmark from 3DMark, more detailed results. The GPU stress test is also used, which is usually used by professional users. R9 290X 3DMark 11 - A synthetic benchmark that is generally used by a normal user to test the gaming ability of a GPU. * Performance: Performance: Note: The Kaveri is not tested in the pre-release version of the Full version, and the version of Windows 8 that is not used. The conclusion will not be made at the same time. Upgrade Edition Full version Note: The NVIDIA GeForce GTX Titan Black is not tested in the pre-release version of the Upgrade Edition, and the version of Windows 8 that is not used. The conclusion will not be made at the same time. Verdict Battlefield 3 Premium 82157476af
